

IMPACT INSIGHTS

What are your *Impact Drivers*?

- If you could quantifiably impact a local area of need for which you feel a high degree of compassion, what might it be (example: education, homelessness, humane society, children’s issues)?
- If you could quantifiably impact an area that has national or international influence, what might it be?
- What type of change would you aspire to see or influence in either area?
How might your family work together to influence change?
